

Early Years Pupil Premium Strategy Statement

This statement details our use of Early Years Pupil Premium funding for the 2022 to 2023 academic year to help improve the attainment of our disadvantaged children. Financial information is approximated and will be reviewed termly as eligible children join the school.

It outlines our Pupil Premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

School overview

Detail	Data
School name	Grandpont Nursery School
Number of pupils in school	36
Proportion (%) of pupil premium eligible pupils	Autumn 14% (5 children – historically this number has risen in Spring and Summer)
Academic year/years that our current pupil premium strategy plan covers	2022-2023 To be reviewed termly
Date this statement was published	23.11.22
Date on which it will be reviewed	28.2.23
Statement authorised by	Grace Slater (Interim Headteacher)
Pupil premium lead	Grace Slater
Governor Lead	TBC

Funding overview

Detail	Amount
Early Years Pupil premium funding allocation this academic year	£3,666.60 (approximately)
Recovery premium funding allocation this academic year	£0
Early Years Pupil Premium funding carried forward from previous years (enter £0 if not applicable)	£0
Total budget for this academic year If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	£3,666.60 (approximately)

Part A: Early Years Pupil Premium strategy plan Statement of intent

Our aim at Grandpont Nursery School is to provide all children with the opportunity to achieve their full potential. We are committed to removing barriers which can be caused by personal circumstances or learning gaps.

Common barriers to learning for disadvantaged children may include:

- Social and emotional needs, including attachment difficulties, emotional regulation difficulties and conflict resolution difficulties
- Poor oral language and/or communication skills
- Complex family situations preventing children flourishing including limited life experiences

The challenges are varied and there is no 'one size fits all' approach for support.

Our objectives are:

- to eliminate the attainment gap between disadvantaged and non-disadvantaged children at Grandpont Nursery School
- for all disadvantaged children to experience a rich curriculum
- to overcome emotional and self-regulation barriers
- to build solid relationships with all children and families at Grandpont Nursery School

We aim to do this through:

- close monitoring of qualitative and quantitative information to ensure accurate and timely identification of children in need of support
- ensuring that teaching and learning opportunities meet the needs of all the children and that where children have specific needs that these are addressed through high quality, evidence-based support led by appropriately trained staff
- having a clear joining process that involves conversations with parents to share information on we need to be aware of

Key principles of our strategy plan

- We ensure that teaching and learning opportunities meet the needs of each child
- We ensure appropriate provision is made for children who belong to vulnerable groups; so the needs of socially disadvantaged children are adequately assessed and addressed.
- We recognise that pupils eligible for Pupil Premium have a wide range of needs, including stretch and challenge for the most able, and use the funding to improve outcomes for the full range of eligible pupils.
- We also recognise that not all pupils who are vulnerable are registered or qualify for Pupil Premium funding. We reserve the right to allocate Pupil Premium funding to support any pupil, or group of pupils, who the school has identified as being at risk of underachievement.
- We track the progress of pupil premium children rigorously to ensure there is a positive impact on learning outcomes

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Communication and language skills less well developed
2	Parental ability to support children's development at home (understanding and finances)
3	Early numeracy skills less well developed
4	Children starting nursery with weaker self-regulation skills than their peers
5	Limited life experiences (cultural capital)

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome – Children will:	These will be measured by
Use a wider and richer range of vocabulary and language structures	<ul style="list-style-type: none"> ● Evidence in learning stories ● Parental feedback ● Assessment information (EYDT) ● Curriculum planning
Be able to express their ideas eg through role play, storytelling and conversation	
Show increasing confidence in managing their emotions, developing a positive sense of self, recognising their own abilities and persevering when things are difficult	
Show mathematical skills expected for their age: <ul style="list-style-type: none"> ● recognise numbers to 3 without counting them ● recite numbers past 5 ● count objects in sequence (to 5) ● know that the last number they say when counting tells them how many they have in total ● link numerals and amounts 	
Benefit from cohesive relationships between their key person and their parents/carers	
Make good progress across all areas of learning because they experience a broad and rich curriculum	

Activity in this academic year: This details how we intend to spend our pupil premium **this academic year** to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £800

Activity	Evidence that supports this approach	Challenge number(s) addressed
Screen children's language using Wellcomm	EPPSE - On average, children who are involved in communication and language approaches make approximately six months' additional progress over the course of a year.	1
Practitioner training – high quality interactions within children's play, to explicitly support communication through talking, verbal expression, modelling language and reasoning	EPPSE - On average, children who are involved in communication and language approaches make approximately six months' additional progress over the course of a year. On average, studies of play that include a quantitative component suggest that play-based learning approaches improve learning outcomes by approximately five additional months.	1
Practitioner training re mathematical development	EPPSE - it is important for early years professionals to understand young children's mathematical development and to understand how to assess this development.	3
In-house staff meetings to focus on provision and understanding of a broad, rich curriculum	Research shows that when children and families' cultures are valued, both the child's experience of learning and progress can benefit (Husain et al., 2018, p. 4 and Gazzard, E. 2018 in Chalmers, H. and Crisfield, E. 2019)	4 5
Non-contact time for Key Person to meet with parents to build understanding and confidence re supporting C&L at home	EPPSE - Studies indicate that involving parents in developing early literacy strategies can be beneficial	2
Non-contact time for SENCo/Key person for targeted planning and monitoring in relation to children with SEND who are eligible for EYPP	SEN Code of Practice - The role of the SENCO involves: <ul style="list-style-type: none"> ensuring all practitioners in the setting understand their responsibilities to children with SEN and the setting's approach to identifying and meeting SEN advising and supporting colleagues ensuring parents are closely involved throughout and that their insights inform action taken by the setting 	1 2 3 4

	<ul style="list-style-type: none"> liaising with professionals or agencies beyond the setting 	
Practitioner training re supporting self-regulation	EPPSE - The development of self-regulation and executive function is consistently linked with successful learning, including pre-reading skills, early mathematics and problem solving. Strategies that seek to improve learning by increasing self-regulation have an average impact of five additional months' progress.	4

Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: £666.60

Activity	Evidence that supports this approach	Challenge number(s) addressed
One to one and small group language and maths activities	EPPSE - certain strategies, particularly those involving targeted small group interaction, may have particularly positive effects on children from disadvantaged backgrounds	1 3
Develop lending library for children and parents to take books home to share	EPPSE - On average, parental engagement programmes evaluated to date have led to a positive impact of approximately four additional months' progress over the course of a year.	1 2
Purchase resources to support small group mathematical play	EPPSE - early numeracy approaches have a positive impact on learning equivalent to approximately six additional months' progress for early mathematics outcomes.	3
One-to-one support and resources for children in receipt of EYPP who also have SEN	EPPSE - certain strategies, particularly those involving targeted small group interaction, may have particularly positive effects on children from disadvantaged backgrounds	1 2 3 4 5

Grandpont
Nursery School & Childcare

Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £2,200

Activity	Evidence that supports this approach	Challenge number(s) addressed
Healthy Snack provision	Malnutrition in the first five years of life have been consistently associated with lower cognitive ability around the world (Grantham-McGregor et al. 2007; Scrimshaw 1998).	2 4
Allocation of additional sessions (and lunch) beyond the 15 funded hours	Children with low attendance in the early years are more likely to come from the poorest backgrounds. These children are likely to start school already behind their peers, particularly in their acquisition of language and their social development. They have little chance of catching up their peers if their attendance is bad. (Taylor in Improving attendance at school (DfE 2012))	1 2 3 4 5
Rich curriculum activities eg: <ul style="list-style-type: none"> ● forest explorers ● caring for chicks ● trips ● cooking ● materials and artefacts that represent the different cultures and languages 	What a setting does, through its EYFS curriculum and interactions with practitioners, potentially makes all the difference for children. It is the role of the setting to help children experience the awe and wonder of the world in which they live, through the 7 areas of learning. (para 187 Ofsted Early Years Inspection Handbook, Sept 2021)	5

Total budgeted cost: £3,666.60

Grandpont
Nursery School & Childcare

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2021 to 2022 academic year.

Assessment of children's development identifies that those in receipt of EYPP funding made progress within the Birth to Five ranges across all areas of the curriculum.

Externally provided programmes – n/a

Please include the names of any non-DfE programmes that you purchased in the previous academic year. This will help the Department for Education identify which ones are popular in England

Programme	Provider

Grandpont
Nursery School & Childcare

Further information

What were the key barriers last year?

- Poor attendance
- involvement with social care
- complex lives outside nursery
- children only attending for 15 hours of nursery.

What did we spend funding on?

- Offering 2 PP children longer days to support them with better attendance. In staying longer Grandpont were able to support them academically and pastorally.
- Providing enriching experiences for PP children which they may not have had access to otherwise. This includes:
 - Chick / hatching programme from Living Eggs
 - Providing compost, seeds and plants for Spring / Summer gardening experiences

Governors have agreed that whilst the Pupil Premium Grant must prioritise the achievement and wellbeing of disadvantaged pupils, the benefits of resources and services should - wherever possible- extend to include other pupils, many of whom are also vulnerable. We use funding to provide extra staff support and resources to ensure there is accelerated learning to ensure there is little or no difference between the achievement of eligible children and those that are not.

The provision and impact through EYPP is monitored through all levels of leadership and management:

- Governor meetings
- Senior Leadership Team meetings
- Pupil Progress Meetings
- Continual Professional Development
